

**THE SPORTS SCENE FAMILY IS DESIGNED TO PROVIDE MAXIMUM FLEXIBILITY FOR FAMILIES OF TROPHIES.**

The Sports Scene family of trophy components is designed to provide the most extensive options for awards to meet every customer's needs. This program comprises several different elements that give you incredible flexibility to create and build the awards your customers want.

The Sports Scene family of award components includes the Sports Scene Column which accepts the elegant holographic inserts. The matching 1 3/4" column is the Illusion. The entire line of 48" columns in 8 different colors can be found in the Column Section, page 5/5. The Activity Insert Risers and Figures are available in three different designs. All styles fit the activity inserts and all are offered in Risers and Figures to create either a spectacular participation award or to build an entire family of awards. The Star family includes a plaque holder.

Also offered is a black photo frame, seen on page 2/6, which allows you to personalize any of the Sports Scene family of components with a wallet size photo.
